Retiring President J. M. Dowsett Sounds Keynote of Thank- | RETIRING AND NEW fulness-A. W. T. Bottomley, New Head of Organization-Committee Reports Show Advance in Production Methods-Labor Shares Benefits-Ta riff Situation Expected to Be Discussed Briefly

Present prosperity and strong confidence in the future are the keynotes of the address with which J. M. Dowsett, retiring president of the Hawalian Sugar Planters' Association, this morning formally opened the 35th annual meeting of the association.

It is expected that the tariff situation will be discussed during the session, though there will little be added to what is already known about it. In his address today President Dowsett formally announced that the year just closed has set a new high record

for sugar production in the territory. with 646,446 tons, the average price re-

ceived being \$89.868 per ton. The benefits which the labor of the plantations has derived from the good prices are also brought out. The address is as follows:

"It is my duty as president of your Regular Routine of Business association to open this, the 35th annual meeting of the association, and to all those in attendance I extend a

hearty welcome. 'The keen interest shown in the business which was transacted at our last meeting by the large number of members who were in attendance was at 10:10 o'clock this morning. One testimony enough to the importance of the largest-if not the very largest and value of these annual meetings to the industry in which we are engaged, and I hope that at this session the free exchange of ideas and experi-ences, particularly by those of us street.

whose business it is directly to produce our sugar, will be of benefit and pleasure to all engaged in the sugar in-dustry of this territory. "It is a trite saying, which present conditions in Europe do not contradict, that that country is happy which has no history, and it can be said with equal truth that the sugar industry of Hawaii is fortunate when the president of its association has to explore the mysterious future in order annual address, for a favorable sea-

annual address, for a Tavorable sea-son, heavy yields, good prices and peaceful, if not wholly contented labor, leave me little to say as to the past, except that I trust our good fortune will kindle in us seatiments of grati-tude and generosity, which will find expression in acts which correspond to them. That one deserving class will not be forgotten, I shall shortly show.

The very few statistics I give you will take little time to read, and may be useful at least for reference.

"The past year gave us a new record in our crop of sugar, the total yield being 646,446 tons, this amount exceeding that of 1914, the next larget, by 29,408 tons.

"Some of the credit for this large vorable weather in the summer of 1914, which especially benefited the non-irrigated plantations on the island

The average price for our product for the year ending October 31 last, based on the average Cuban basis for 96 degree centrifugals, in New York, was 4.4934 cents per pound or \$89,868

"Good crops of sugar have been obtained in all the cane-growing countries and with the yield of the beet crop on the mainland also large, as well as a falling off in the world's consumption, lower prices were ex-

"A scarcity of ocean tonnage, however, in the past few months, thereby to meet in immediately, and on modelaying the marketing of the last of tion of E. F. Bishop a recess until 11 the 1915 Cuban crop, largely contrib-uted to a sudden demand on the part of the eastern refiners for supplies of raw sugar to meet their requirements officers as having been elected: at this season of the year, resulting in the price of raws again advancing until it reached the high point of the year early this month. Still, prices secretary and treasurer, Louis J. Warto consumers have never reached fig. ren; auditor, J. W. Waldron. ures which worked a hardship to any. New President Begins Business.

Small numbers of Filipinos have chair amid applause. He expressed arrived during the part year, and as his appreciation of the honor, saying the result of the better knowledge of it would be his endeavor to conduct the superior labor conditions here, communicated no doubt by those here to their friends at home, a better class of these immigrants than what the pioneers consisted of has been obtained, and a high value is now placed on this labor by our managers. They, rapidly after their arrival, gain in weight and strength and are soon not only desirous but become well able to compete with their fellow workmen of different races.

"The conclusion is clear that the advantages, which it was hoped would be derived by the Philippines, through some of its people being given an opportunity of working alongside of other labor, which is everywhere regarded as highly efficient, are being

"No other labor, in which the association is directly interested, arrived during the year 1915.

Plantation Improvement. "The continued improvement in the domestic conditions of our plantations claims some part in the improved of our labor, which has been good during the year, and the wages Lane of the Interior this morning. The now paid, if they do not satisfy all, leave little ground for complaint.

WASHINGTON, D. C., Dec. 14 .- The

Twelve boys were indicted by the territorial grand jury on a charge of unlawful assembly. The case against Peter August was nolle prossed at the instance of City Attorney A. M. Brown. Trial of the case began yesterday morning, Attorney Clem Quinn having been appointed by the court to defend the alleged ringleaders. The jury was composed of F. E. Col-

by, Sam Nuuanu, J. A. Noble, C. W. Renear (foreman), William K. Rees, E. F. Aguiar, W. K. Hutchison, G. K. Dwight, A. N. Otremba, A. W. Howe, Jack Milton and Charles E. Frasher. That Superintendent Hugh Tucker was the official censor at the school was brought out this morning in the testimony of Kanekoa Baker, who said that he was an inmate of the school and that he has been cook for the last three years. Baker said that the meat from the cow which had fallen off the cliff was rotten when it was brought into the kitchen, and that later he wrote a letter to Henry W Kinney, superintendent of public in-struction, complaining about the meat.

Tucker got the letter, Baker said, and then gave the boy 42 "straps" for writing it. Baker said that the meat which was used for stew was so rotten that he got orders to put curry in it to overcome the odor. Other portions to overcome the odor. Other portions of the cow, he added, were left in the storeroom until they became full of

as a witness, testified that when he sent some of the boys after the cow, they reported that the cow was dead and that the body was still warm. He added that that part of the cow which was not bruised was used for food.

"Essentials of the President's manas a witness, testified that when he and that the body was still warm. He added that that part of the cow which was not bruised was used for food. Both the boys and the teachers ate the meat, he said, and he declared that the meat was not rotten.

Regarding the food at the school, Tucker said that if a boy did not like the meat was a served for break.

the mush which was served for breakfast, he got nothing as a substitute Tucker admitted that he had received complaints from the boys that the meals were not sufficient.

"It is a case of the boys eating what is put before them or going without," (Continued on page two)

WASHINGTON, D. C., Dec. 14.—In a bill prepared by the war department and ready for introduction in Congress, an increase of nearly 300 per cent over the appropriation of last year is asked for big guns and coast fortifications.

The bill is the fortifications bill dealing with the ordnance needed and the further fortifying of the coast defense districts. Last year Official confirmation of reports that Included in this is the cost of new sites for coast forts. The scheme proposes to spend \$80,000,000 for coast defenses in four years

In the annual report of Secretary of War Garrison, which reach

ed Honolulu by mail yesterday, the following reference is made to this tremendous coast defense scheme:

"For the purpose of accertaining the requirements with respect to the coast defense fortifications, the secretary of war some months ago created a board composed of the heads of all-departments having to do with this subject matter. Space and other considerations make it undesirable to go into the matter as reported upon by them, in detail; it is sufficient to say that they have given the entire subject full consideration, aided by reports and suggestions of those on the ground and familiar therewith. Under their instructions they were to report upon any needed fortifications at places where they do not now exist, any change at existing fortifications, and any supplements thereto. They have prepared elaborate reports covering all these points and have suggested a total expenditure during the next four years of \$80,000,000 in annual increments of \$20,000,000 each. will present themselves. Therefore, in order to avoid desultoriness, things should not be done hastily. Thus it is

"The board reported an irreducible minimum for additional sea coast defenses, necessary accessories, and an adequate reserve o ammunition, totaling \$81,677,000, of which there would be used:

In continental United States ......... \$60,540,000 Over seas ...... 21,137,000 "This board estimates that appropriations can be expended to the greatest advantage at an annual rate of approximately \$20,000, 000, thus completing the work in four years."

## Greek Food Supply Hit By Allies

LONDON, Eng., Dec. 14.—Greece has commandeered all Greek shipping between Great Britain and the United States in an effort to supply the deficiency in her food and coal supply as a result of the restrictions on her commerce imposed by the Entente powers.

An Athens despatch this afternoon says that Germany will protest against further concessions by Greece to the Allies. Associated Press by Federal Wireless
